1. The Major

**Major Profile**

In the admission decision for this and every major, a wide range of factors are taken into consideration. The profile should not be used to overstate the importance of grades in the admission decision for academic majors but it may offer some guidance as you plan for transfer.

2. General Education & Basic Skills Requirements for the College of the Environment

This major is in the College of the Environment, and these are requirements for graduation from that college. You'll find that many of them overlap with prerequisites for the major and requirements for an associate degree. However, completion of the associate degree does not in itself guarantee completion of UW general education or basic skills requirements so it is in your best interest to work these into your schedule before you transfer.

Directions: Record the courses you have taken, are taking, or plan to take prior to UW enrollment that you believe are equivalent to the UW course requirements listed below.

Areas of Knowledge AoK - To graduate, students complete 60 credits among the three areas listed below. It is not necessary or even recommended to complete the entire AoK before transferring. It is just as important to work on prerequisites for your major. Students entering the University of Washington must also meet a Diversity requirement. These credits simultaneously satisfy other Area of Knowledge requirements and do not add to the total number of credits you need to graduate. For more information, go to: [http://www.washington.edu/uaa/advising/general-education-requirements/diversity/](http://www.washington.edu/uaa/advising/general-education-requirements/diversity/)

**Natural World NW**
(Natural Sciences) 20 credits minimum*

**Individuals & Societies I&S**
(Social Sciences) 20 credits minimum*

**Visual, Literary & Performing Arts VLPA**
(Humanities) 10 credits minimum

* 10 credits of I&S and 10 credits of NW must be outside the major (i.e., not a major prefix and no overlap with major)
