

# Sample A Class

---

Autumn Quarter, 2017

Welcome, and thank you for your interest in visiting campus. Please read these guidelines before attending any class on drop-in course list:

1. **Arrive on time** and remain for the entire class. Some classes are longer than others, so be sure to check the class times.
2. Please **introduce yourself to the professor** before the class begins, so that they know you are there and can meet you.
3. If the class you wish to visit appears to be taking an exam or doing a special activity, choose another class.
4. Conduct yourself in a manner that **will not disrupt** the class or lecture. This includes **turning off cell phones** or other noise-making devices, providing the professor with your undivided attention and refraining from participating in lecture unless specifically encouraged.
5. Please limit the number of visitors to a **maximum of 3 per class**.
6. Room numbers cannot be guaranteed. Please verify class locations by viewing the Time Schedule at <https://www.washington.edu/students/timeschd/AUT2017/>.
7. The Drop-In Course List includes a small sample of UW classes. A full list of course offerings is available at <https://www.washington.edu/students/crscat/>.
8. Please **do not** visit any class that is not listed in the Drop-In Course List.

**DEPARTMENT Course Number & Title**

Professor's Name

Building and Room Number

Days In Session

Class Time

Course Description ---  

**CHSTU 200 Latinos in the US**

Prof. G Guzman

SMI 105

TTh

1:30-3:20pm

Studies broad patterns of inequality formed by historical forces, race, ethnicity, nationality, gender, immigration, and social capital. Analyzes rapid growth and adjustment of old and newly established Latino communities, resulting from transnational migration from Latin America.

**ANTH 101 Exploring Sociocultural Anthropology**

Prof. MV Perez

JHN 102

MW

1:30-3:20pm

Introduces perspectives from sociocultural anthropology on the diversity and the dynamics of collective human life. Examines how individual lives are shaped by broader social and cultural contexts, how people make meaning, and how power relations work. Introduces ethnography as a method for documenting and understanding social and cultural life.

**ANTH 209 Anthropology through Visual Media**

Prof. D Hoffman

ARC 147	MW	12:30-2:20pm
Theories of culture and cultural variation, as seen and understood through visual media such as films, video, and photography.		

<b>ANTH 215 Introduction to Medical Anthropology and Global Health</b>		
Prof. MS Van Eijk		
ARC 147	TTh	12:30-2:20pm
Explores influences of global processes on health of U.S. and other societies from a social-justice perspective. Emphasizes inter-relationships between cultural, environmental, social-economic, political, and medical systems that contribute to health status, outcomes, policies, and healthcare delivery. Focuses on health disparities within and between societies and communities around the world.		

<b>ART H 209 Themes and Topics in Art History</b>		
Prof. M Hansen		
CDH 109	MTWTh	1:30-2:20pm
Introduces students to new ideas, developing themes, and current research in art history and visual culture.		
If you notice UW students taking exams, professor requests visitors do not attend test-taking days. You are welcome to contact the professor before visiting: djh13@uw.edu		

<b>BIO 118 Survey of Physiology</b>		
Prof. K Petersen		
KNE 120	MTWThF	9:30-10:20am

Human physiology, for nonmajors and health sciences students.

If you notice UW students taking exams, professor requests visitors do not attend test-taking days.

### BIO 180 Introductory Biology

Prof. SR Freeman

KNE 130

MTWThF

1:30-2:20pm

Mendelian genetics, evolution, biodiversity of life forms, ecology, and conservation biology. Open to all students interested in biology whether intending to major in the biological sciences, enroll in preprofessional programs, or fulfill a Natural World requirement.

Professor requests students do not attend on October 11th, October 25th, November 8th, or November 22nd.

### BIO 200 Introductory Biology

Prof. A Schivell

KNE 120

MTWTh

2:30-3:20pm

For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Metabolism and energetics, structure and function of biomolecules, cell structure and function, animal development.

The professor requests that students do NOT visit the class on Fridays due to exams or quizzes taking place that day.

### CHEM 142 General Chemistry

Prof. C Craig

KNE 130

MWF

8:30-9:20am

For science and engineering majors. Atomic nature of matter, quantum mechanics, ionic and covalent bonding, molecular geometry, stoichiometry, solution stoichiometry, kinetics, and gas laws. Includes laboratory.

### CHEM 152 General Chemistry

Prof. G Varani

BAG 131

MWF

1:30-2:20pm

Gas phase and aqueous equilibria, thermochemistry, thermodynamics, and electrochemistry.

### COM 220 Introduction to Public Speaking

Prof. M McGarrity

MGH 389

MW

11:30-12:20pm

Designed to increase competence in public speaking and the critique of public speaking. Emphasizes choice and organization of material, sound reasoning, audience analysis, and delivery.

Professor requests that students introduce themselves prior to the class beginning. Feel free to also talk to the professor after the class!

### C Lit 200 Introduction to Literature

Prof. E Ames

GWN 301

T

12:30-2:20pm

Reading, understanding, and enjoying literature from various countries, in different forms of expression (e.g., dramatic, lyric, narrative, rhetorical) and of representative periods. Emphasis on the comparative study of themes and motifs common to many literatures of the world. Please note that class is taught by distinguished faculty from across the humanities, and will have a different guest speaker each week.

Professor requests that students introduce themselves prior to the class beginning.

### ECON 201 Introduction to Macroeconomics

Prof. D O'Dea

KNE 130

TTh

10:30-11:50am

Analysis of the aggregate economy: national income, inflation, business fluctuations, unemployment, monetary system, federal budget, international trade and finance.

### ECON 200 Introduction to Microeconomics

Prof. M Knox

KNE 130

TTh

9:00-10:20am

Analysis of markets: consumer demand, production, exchange, the price system, resource allocation, government intervention.

### GEOG 208 Geography of the World Economy: Regional Fortunes and the Rise of Global Market

Prof. J Ellis

CDH 109

MW

2:30-3:50pm

Examines the relationship between the globalization of economic activity and regional development. Topics include international trade, colonialism, industrial capitalism, advanced capitalism, and the globalization of labor markets.

If you notice UW students taking exams, professor requests visitors do not attend test-taking days. Please choose another class day if class is canceled the day you arrive.

### HSTAM 215 Tudor England

Prof. C Urabnski

BAG 260

MW

1:30-3:20pm

Covers the political, social, and cultural history of England from Wars of the Roses to reign of Elizabeth I; themes include social order, economy and society; imposition of order after a change of dynasty; political propaganda; English Reformation and Renaissance; literature and culture; witch beliefs and witch trials; and political rebellion.

### HSTAA 110 History of American Citizenship

Prof. J Findlay

BAG 154

MTWTh

12:30-1:20pm

Examines how, when, and why different groups of people (e.g., white men, white men without property, peoples of color including one-time slaves, women, immigrants) became eligible for citizenship throughout American history. Explores how and why for many peoples, at many times, citizenship did not confer equal rights to all.

### JSIS 200 States and Capitalism

Prof. A Yang

GUG 220

MWF

12:30-1:20pm

Origins of the modern world system in the sixteenth century and its history until World War I. Interacting forces of politics and economics around the globe, with particular attention to key periods of expansion and crisis.

### JSIS A 210 Introduction to Islamic Civilization

Prof. H Mahmood

SAV 260

TTh

1:30-3:20pm

Covers major developments in the formative, classical, and modern periods of Islamic civilization from seventh century Arabia to the contemporary Muslim world. Looks at the development of Islamic religious thought and legal practice as well as the Muslim polities, cultures, and intellectual traditions of Asia, Africa, Europe, and America.

Profess requests that you email them introducing yourself, before visiting their class: [hmzafer@uw.edu](mailto:hmzafer@uw.edu)

### PHYS 114 General Physics

Prof. D Smith

PAA A102

MWF

11:30-12:20pm &  
1:30-2:20pm

Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Mechanics.

Profess requests that you email them before visiting their class: [dsmith4@uw.edu](mailto:dsmith4@uw.edu)

### PSYCH 101 Introduction to Psychology

Prof. J Pickrell-Spector

KNE 120

MTWThF

11:30-12:20pm

Surveys major areas of psychological science. Core topics include human social behavior, personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology.

Professor requests that students do NOT visit on October 17<sup>th</sup> or November 9<sup>th</sup> due to examinations.

### PSYCH 305 Abnormal Psychology

Prof. D Chun

JHN 102

MTWTh

10:30-11:20am

An overview of major categories of psychopathology, including description and classification, theoretical models, and recent research on etiology and treatment

Professor requests that students email them prior to the date they are planning to visit: [dchun@uw.edu](mailto:dchun@uw.edu)

### SOC 110 Survey Sociology

Prof. S Tomczuk

GWN 301

MWF

11:30-12:20pm

Human interaction, social institutions, social stratification, socialization, deviance, social control, social and cultural change. Course content may vary, depending upon instructor.

Professor requests that students email them prior to the date they are planning to visit: [tomczuk@uw.edu](mailto:tomczuk@uw.edu).

### ARCH 150 Appreciation of Architecture I

Prof. A Anderson

KNE 130	TTh	3:30-4:50pm
Historical survey of the architecture of Western civilization.		

<b>ACCTG 215 Introduction to Accounting and Financial Reporting</b>		
Prof. E Weber		
PCAR 192	MW	1:30-2:50pm
Nature and social setting of accounting; uses of accounting information; introduction of basic accounting concepts and procedures; interpretation of financial statements.		

<b>FIN 350 Business Finance</b>		
Prof. A Stathopoulos		
DEM 102	MW	1:30-3:20pm
Evaluating and funding projects within the firm. Time value of money, inflation, capital budgeting; risk and return in the financial markets, stocks, bonds, portfolios and diversifiable risk, market efficiency and the balance between debt and equity to fund the firm.		
Professor requests that students email them prior to the date they are planning to visit: <a href="mailto:astath@uw.edu">astath@uw.edu</a>		

<b>OCEAN 101 Oceanography Pacific Northwest</b>		
Prof. A Stathopoulos		
MGH 389	MWF	12:30-1:20pm

Introduces the fundamental principles of oceanography by focusing on the waters that surround us - the Washington coast and Puget Sound. Investigates the geologic history of the Pacific Northwest, and the physics, chemistry, and biology of coastal waters using case studies.

Professor requests that students email them prior to the date they are planning to visit: [astath@uw.edu](mailto:astath@uw.edu), and introduce themselves at the start of class.

### ESRM 101 Forests and Society

Prof. K Vogt

KNE 210

MTWThF

12:30-1:20pm

Survey course covering forest ecosystems of the world, history of forestry and forest conservation, how forest ecosystems function, wildlife in forests, environmental issues in forestry, forest management, economics and products, and new approaches to forest management.

Professor requests that students do not attend on Fridays since typically quizzes and videos are on that day.

### CSE 142 Computer Programming I

Prof. W Brand

KNE 120

MWF

3:30-4:20pm

KNE 130

MWF

11:30-12:20pm

Basic programming-in-the-small abilities and concepts including procedural programming (methods, parameters, return, values), basic control structures (sequence, if/else, for loop, while loop), file processing, arrays, and an introduction to defining objects. Intended for students without prior programming experience.

### HSTAM 111 The Ancient World

Prof. J Walker

KNE 110

MTWTh

10:30-11:20am

Origins of Western civilization to the fall of Rome.
